Image Release and Preferred Communication Form

Periodically, we take pictures of children at Visalia Montessori School. Most of the pictures stay within the school, meaning they are used in the classroom for staff and/or students or will appear in the yearbook which can only be purchased by families at our school.

However, we do use pictures in our advertising, website and Facebook page. Children's names are never associated with their pictures. Please indicate whether or not you agree to have your child's image used in any of the following outlets. You reserve the right to review all images before they are used.

Print and or video/film

Yes, my child's image may be used. No, my child's image may not be used.

Website
